

WORLD ENVIRONMENT DAY 2022 CHARITY STATEMENT

Dear supporters of The Change Foundation,

In October last year, our young people held their own alternative 'COP26' event and from their discussions our TCF 'Green Team' was born.

Our Green Team is made up of young people, members of staff and trustees. It drives forward changes in how we actively reduce our carbon footprint and operate in a way that improves our natural environment, rather than damage it.

For the first time, our impact strategy will measure our environmental impact, as well as our charity's impact on the lives of our young people. Additionally, when developing any sports project we will factor in environmental costs and benefits to our outcome and budgets.

We know we won't get everything right from the start but as with all new initiatives, we will learn and adapt to ensure we are as effective and efficient as we can be in our goal of operating in as environmentally friendly way as possible.

Kind regards,

Andy Sellins
Chief Executive
